

ASA 20,000LV PUMP

Product Parameters

Model	ASA 20000LV Pump
Flow rate	20,000 L/H
Head	8M
Power	220W
Voltage	DC30V
Dimension	270*136*188
Outlet/Inlet	50mm/50mm

Features

- 8m head height, 220 watts
- 10m cable
- Weatherproof controller and transformer.
- Low Voltage (DC30V) operation.
- Safe, long life expectancy with low noise.
- With ceramic shaft and carbon fibre shaft sleeve to ensure the motor's long life expectancy.
- Suitable for both fresh water and salt water use.
- 5 year warranty on pump and controller.
- 2 year warranty on power supply/transformer.

ASA 20,000LV PUMP

Features

- 8m head height, 220 watts
- 10m cable
- Weatherproof controller and transformer.
- Low Voltage (DC30V) operation.
- Safe, long life expectancy with low noise.
- With ceramic shaft and carbon fibre shaft sleeve to ensure the motor's long life expectancy.
- Suitable for both fresh water and salt water use.
- 5 year warranty on pump and controller.
- 2 year warranty on power supply/transformer.

Installation Instruction

- Pump comes complete with inlet cover and hose fittings.
- Connect the supplied pump cables to the controller using the 3 pin quick connectors. Then connect the power supply to the controller before plugging into power.

Maintenance

- Clean the pump regularly, at least once per year to ensure the pump's longevity.
- Do not run dry. This will void the warranty.

Warranty

- 5 year warranty on pump and controller. 2 year warranty on power supply/transformer.
- Receipt of purchase is required to make a warranty claim.

The following items are not covered by warranty:

- Non standard operation, incorrect installation and placement.
- Running Dry
- Damage caused by transport
- Malfunction caused by natural disasters
- Failure caused by accidents of rated power (voltage and frequency)

The interpretation of the above warranty terms are made by Aquascape Australia.
